

NATIONAL GRID ROAD WORK UPDATE – MAY 19, 2017

I wanted to provide the additional update that we expect the main construction work for this project and road closures to begin the week of May 29th. The North Service Road of the LIE will remain open for local residents between Jericho Tpke and Glen Cove Road, and for emergency vehicles. The On Ramp of the LIE Westbound will remain open at the Jericho Tpke exit and all other westbound vehicles (non-local) during the overnight work hours will be diverted to Jericho Tpke.
